Justin,

We have reviewed your letter.

We respectfully disagree with your characterization of the position taken in our prior email. As I wrote in my prior email, it remains our position that funds raised by We Build the Wall as part of the fraud scheme alleged in the Indictment are crime proceeds. The Indictment alleges that the scheme began in at least December 2018 and was ongoing at the time of the Indictment, which was returned in August 2020. Therefore, our position is that all funds raised by We Build the Wall during that time period are crime proceeds. At the present time, we take no position on whether funds raised by We Build the Wall after the Indictment was unsealed are crime proceeds.

You are incorrect that there is no legal order freezing assets. Please find attached an order issued by Judge Torres on August 24, 2020. Although it was filed under seal, we are providing it to you pursuant to the Court's provision that we may provide a copy to any person in order to facilitate the execution of the order. We request that you treat this document as confidential and do not share it with anyone aside from your client, who should not distribute it further.

Thanks,

Rob

Justin,

We have reviewed your letter. It remains our position that funds raised by We Build the Wall as part of the fraud scheme alleged in the Indictment are crime proceeds.

On the issue of unpaid vendors, it is our view that they are unpaid creditors and should not receive priority over defrauded victims.

On the issue of legal fees, in order to address the specific points in your letter, we would be grateful if you could please provide the following additional information:

1. Does We Build the Wall, Kobach, or anyone else you're writing on behalf of not have sufficient funds to cover the legal fees described in your letter? Particularly as this question relates to individuals, can you provide us with documents sufficient to show that they do not have sufficient other assets (i.e., assets separate from the funds you identified and which they are seeking to use) to cover the legal fees described in your letter?
2. Please provide legal authority, if you are aware of any, establishing that individuals (such as Kobach and Kolfage) may have a right to have corporate assets, as opposed to personal assets, freed to cover individual legal fees. In addition, with respect to an uncharged individual (such as Kobach), we would be interested in any legal authority establishing that an uncharged officer or employee may have a right to have corporate assets unfrozen to cover his individual legal fees in the course of an investigation.

Thanks,

Rob

Any documents withheld on grounds of privilege must be specifically identified on a privilege log with descriptions sufficient to identify their dates, authors, recipients, and general subject matter.

We request that your client produce the following materials, for the time period of December 1, 2018 until August 20, 2020:
